

From the first word, Hands Across the Sky draws the listener into an intoxicating tale of mystery and hope, beautifully told. When Ezra Quinn, a San Francisco techie, gets a call one Saturday morning, he has no idea that his life is about to change beyond his wildest imaginings. Quinn is offered a lucrative position in the Middle East in his field of wearable tech. A week later, he's on a flight to Dubai. In Dubai, Quinn meets beautiful, cosmopolitan Leila, who orients him both to his work and to the political complexities in the region. Though the Middle East is on fire, Leila drops a hint that there is another way...the way of the Open Hand. Leila accompanies Quinn to Cairo, where he meets Alif Zahir, the passionate, intelligent official at the center of the operation. As Quinn begins working on the project, he starts to become suspicious. Is Alif Zahir really who he says he is? And is the project truly aimed at peace? Soon, events will spiral out of control, and Ezra Quinn will find himself caught up in a web of violence and treason from which there seems no escape.
