

By the age of 24, Tony Frierson was running his own successful motivational speakers agency. The celebrity and professional personalities Frierson represented were inspiring people all over the world. He was happy being the guy behind the scenes handling all of the deals and details. But the lack of a relationship with his father tormented him. After the collapse of his first company, a failed marriage and finding himself in serious financial difficulty caused by the mortgage meltdown, Frierson was inspired to write about his journey. As a single father, Frierson chronicles the challenges of his journey as he tries to provide his own son with the love, direction and knowledge he never received from his father. In *Parenting on the Edge*, Frierson shares the most intimate details of how he raises his son on the emotional and financial edge and battles to overcome his fatherless past. The purpose of this book is to first encourage fathers to have a deeper relationship with their children, give mothers a true look inside the mind and heart of single father and to challenge mothers and fathers to work together to increase the amount of positive energy that our children receive from us.
