

What Not to Do in Your Photography Business: Advice, examples, and mild sarcasm from someone who quit her day job to open a studio....and then got her day job back.

The best way to learn is to learn from other peoples mistakes. So many books cover what to do, but miss the mark when it comes to what you shouldnt do. The author, Chris Darbonne, quit her job working for an automotive company to open a photography studio. Her honest and conversational writing style may give you some insight into a retail photography studio. Learn what she did wrong, and also all the things she did right. Chris discusses things to be prepared for as well as techniques that worked. A good resource for anyone considering a photography studio or small business.
